

Compost

Optimize your environment with the ideal nutrient-rich, eco-friendly solution

For any project, from backyard gardens to industrial landscaping projects, Denali provides the perfect WeCare bulk or ReCirculate™ bagged composts, mulches and soils to help you achieve your goals.

USES

- 🌱 Topdressing
- 🌱 Soil Amendment
- 🌱 Stormwater management
- 🌱 Improving existing soil
- 🌱 Erosion & sediment control
- 🌱 Natural fertilizer

BENEFITS

- ✅ Improved soil structure
- ✅ Enhanced drought resistance
- ✅ Stabilized pH levels
- ✅ Increased cation exchange
- ✅ Augmented macro/micronutrients
- ✅ Strengthened disease resistance

Denali's ReCirculate™ and WeCare Compost® products are manufactured in strict accordance with all state and federal guidelines. Denali is a top participant in the US Compost Council Seal of Testing Assurance (STA) Program and invests in extensive testing on a regular basis. Our compost products comprise multiple feedstocks including green waste, biosolids, food waste and more, depending on the facility. We have the expertise to manufacture the highest quality compost and the experience to support its end use.

DENALI

Why use compost from Denali?

- ✔ Supplies a significant quantity of organic matter.
- ✔ Improves soil structure, porosity, density, and creates a better plant root environment.
- ✔ Increases infiltration and permeability of heavy soils, reducing erosion and runoff.
- ✔ Improves water holding capacity, reducing water loss and leaching in sandy soils.
- ✔ Supplies a variety of slow-release macro and micronutrients.
- ✔ May control or suppress certain soil-borne plant pathogens.
- ✔ Improves cation exchange capacity (CEC), improving ability to retain nutrients.
- ✔ Supplies beneficial microorganisms to soils.
- ✔ Improves and stabilizes soil pH.
- ✔ Can bind and degrade specific pollutants.
