

# Services

## Contracting with Denali can save your town money and free municipal personnel and equipment to concentrate on providing care services

Denali is a premier recycler of organic residuals, supplying both public and private sectors throughout the U.S. Above all, we are committed to quality, consistency and value throughout the landscape, construction and agricultural industries.

### DISPOSAL SERVICES

- ▶ Brush
- ▶ Leaves
- ▶ Pallets
- ▶ Stumps
- ▶ Logs

Denali's ReCirculate™ and WeCare Compost® are produced at dozens of our compost facilities across the country that are enrolled in the US Composting Council Seal of Testing Assurance Program.

# Denali Services

- ✔ **Green Waste Recycling:** Got loads of wood, brush and yard waste to dispose of? Bring your brush, leaves, and chipped wood to our facility and we'll turn it into quality landscaping products. It's a fast, efficient, and environmentally responsible way to deal with your town's yard waste.
- ✔ **Green Waste Management:** Put our recycling management expertise to work with a custom program designed to your town's individual requirements. Services include: yard waste grinding, screening and windrow turning.
- ✔ **Food Waste Hauling:** Instead of sending your company's unused food to a landfill, we collect and ensure that it is properly recycled into high-quality and useful end products.
- ✔ **Green Waste Hauling:** We help towns quickly and easily dispose of your brush, leaves and chipped wood. With just one call, we can arrange for all the equipment and manpower your town requires to efficiently haul your yard waste to our recycling facilities.
